TROUBLESHOOTING

Problem	Solution
The keyboard/mouse is not working.	1. Disconnect the keyboard/mouse from the PC and check connector pins for possible damage. If there is no external damage found and the connector pins are OK, connect the keyboard/mouse to the PC again.
	4. Address your nearest authorized service center.

If none of the above methods can solve the problem, please seek professional advice at your nearest service center. Never attempt to repair the product yourself.
